GREEN MESSAGE

Committed to Sustainable Design

There are 3 key goals driving Wilsonart Sustainability initiatives

Zero waste | Zero impact | Zero barriers

Zero waste has focused Wilsonart® on eliminating unnecessary materials, processes and waste from the product we make and sell.

Zero Barriers focuses on the things Wilsonart® people can do in the local environment. This includes community programmes and practical measures such as providing end-of-line colour sample chips to children and art students for their projects, reducing costs for schools while adding to our recycling commitment.

Zero impact policies has brought about greater focus on recycling to help our environment. Improving the quality of indoor air is vital for human health and Wilsonart® Laminate meets the industry's highest standards for Indoor Air Quality with SCS indoor advantage and Greenguard. The Greenguard certification ensures that a product has met some of the world's most rigorous and comprehensive standards for low emission of volatile organic compounds (VOCs) into indoor air. This standard includes health based criteria for additional chemicals and also requires lower total VOC emission levels to ensure that product are acceptable for use in more sensitive environments such as schools and healthcare facilities.

Sustainability is a full-circle program at Wilsonart®

Technical Data

Characteristics.	Typical Arborite HPL	NEMA Requirement
Thickness Tolerance	0.7 mm. ¹ ± 0.1 mm.	0.7 mm. ± 0.1 mm.
Surface Finish	As specified	As specified
Wear Resistance (Revolution Cycle)	600 - 700	Min 400
Boiling Water Resistance (NEMA test) Resistance to Water Vapour (ISO test)	No effect No effect	Slight effect N/A
High Temperature Resistance	Slight effect	Slight effect
Radiant Heat Resistance	140 seconds	Min 80 seconds
Stain Resistance Cleanability (cycle) NEMA Test : Reagents 1 - 10 Reagents 11 - 15 ISO Test : Chemical Group 1 and 2 Group 3 and 4	20 No effect Slight effect 5 3	Max 20 No effect Moderate effect N/A N/A
Dimensional Change Machine direction Cross direction	0.4% 0.9%	Max 1.1% Max 1.4%
Ball Impact Resistance	35 inch	Min 20 inch

¹Thickness could be varied upon product type.

All specifications are subjected to change without prior notices.

*Above technical data applies for standard Arborite HPL type 129 only (not include backer HPL).

For more information, please contact our company sales representative.

The data in the table are not guaranteed values but reference values.
