CELSUS

Anti-Fingerprint (AFP) HPL

2011 ■

In 2008, we launched CELSUS, the world's first decorative panel featuring Anti-Fingerprint (AFP) capabilities. (According to our research)

AICA's proprietary technology successfully keeps fingerprints from being visible on HPL and, in addition, allow for reduced HPL surface reflectance white creating vivid colors and patterns.

Other Products By Wilsonart

Wilsonart® AEON Extra Wear For Long Lasting Surface

Wilsonart® Laminate with AEON™ technology creates a surface that is dramatically more durable than before. Laminate with AEON™ technology outperform traditional laminate on wear resistance as well as scratch, scuff, mark resistance. Enhanced performance laminates are 3 to 5 times more resistant to traditional laminate, while wear resistance reaches 1,200 cycles, outperforming the standard by 3 times.

Wilsonart® Magnetic Laminate Functional Surface to Display Your Elements

Wilsonart® Magnetic board is integrating functionality and design into one solution bringing a new way to manage and display important information, pictures or decorative items adding decoration to the room.

Wilsonart® Marker Board Mark Your Difference

Wilsonart® Marker Board Laminate offers great versatility and decorative opportunities as a dual purpose board for projection and dry or wet erase uses. Wilsonart Marker Board is excellent surfaces for office conference room, school classroom to hospital cafeterias.

Wilsonart® Solicor Stunning Designs With No Visible Seam at The Edges

Wilsonart® Solicor is designed to enhance your most prestigious and refined projects in furniture. The Solicor allows you to create clean lines without visible edges.

Wilsonart® Fire Rated Laminate Class A Fire Rate Performance Laminate

Wilsonart® Fire-Rated Laminate is superb for interior application where a decorative surface requires durability, easy care and style with resistance to Flame Spread and Smoke Development in case of fire. Suitable for surfacing furniture in public places: airports, hotels, office building and institutions such as hospitals and schools.

Wilsonart® Fire-Rated Laminated is certified by American Society for Testing Materials ASTM E-84

Wilsonart® Compact Board High Impact Resistance For Any Solutions

Wilsonart® Compact Board with high impact strength against water, steam, and moisture. All the variety of Wilsonart® range from solid colors, woodgrain, stone and custom designs can be chosen to make one-sided or two-sided compact board. Suitable for both interior and exterior works (exterior grade) such as interior wall feature, exterior wall claddings, toilet cubicle, elevator walls, partitions, kitchen countertops, doors and signages.

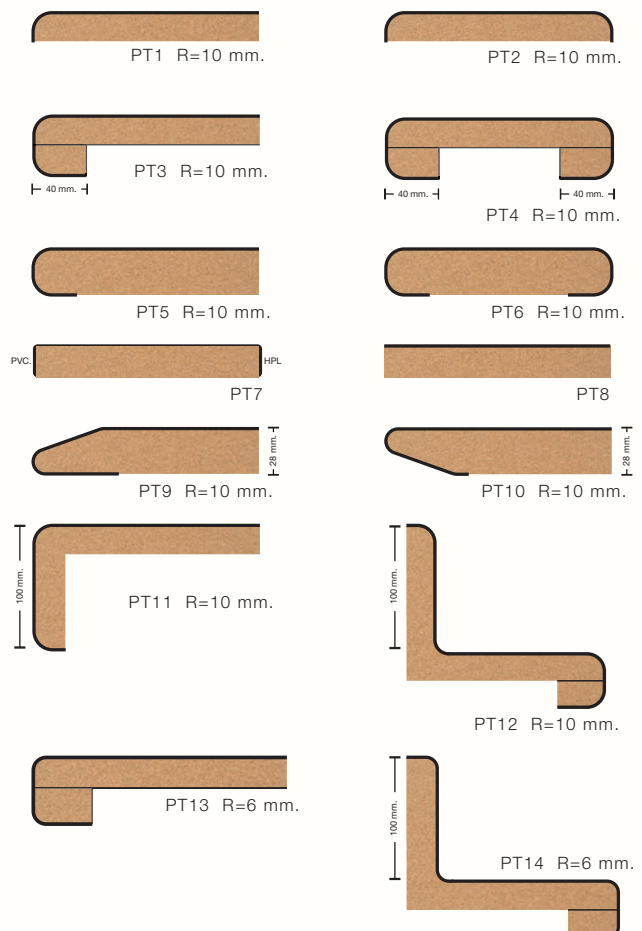

Wilsonart® Chemsurf A Solution Provider For Laboratory

Wilsonart® Chemical Resistant laminate answers the challenge for highly corrosive environments provide exceptional chemical and water resistance in an extensive array of decorative patterns. Wilsonart® Chemsurf is resistant to 149 stains and chemical agents. Suitable for Medical and educational laboratory cabinets, case work, counters, table tops in hospitals, darkrooms, beauty salon and product testing laboratory.

Wilsonart® Top Bonded Variation of Prefabricated Elements

Wilsonart® HPL applied on wooden materials such as MDF, plywood, particle board with edged or seamlessly postformed.

*For Special order of R6, Please contact your Wilsonart representatives.

GREEN MESSAGE

Committed to Sustainable Design

There are 3 key goals driving Wilsonart Sustainability initiatives

Zero waste | Zero impact | Zero barriers

Zero waste has focused Wilsonart® on eliminating unnecessary materials, processes and waste from the product we make and sell.

Zero Barriers focuses on the things Wilsonart® people can do in the local environment. This includes community programmes and practical measures such as providing end-of-line colour sample chips to children and art students for their projects, reducing costs for schools while adding to our recycling commitment.

Zero impact policies has brought about greater focus on recycling to help our environment. Improving the quality of indoor air is vital for human health and Wilsonart® Laminate exceeds the industry's highest standards for Indoor Air Quality with SCS indoor advantage and Greenguard. The Greenguard certification ensures that a product has met some of the world's most rigorous and comprehensive standards for low emission of volatile organic compounds (VOCs) into indoor air. This standard includes health based criteria for additional chemicals and also requires lower total VOC emission levels to ensure that product are acceptable for use in more sensitive environments such as schools and healthcare facilities.

Sustainability is a full-circle program at Wilsonart®
