About us

About us

Imagine a world where surfaces defy the impossible.

Imagine a world where surfaces defy the impossible. Technology constantly overcomes new challenges to create exceptional, globally recognized products. Motivated by the value of innovation, We Virgo began its journey 30 years ago, and the rest is history. Over these three decades of corporate excellence, Virgo Laminates has continually innovated in technology, raw materials, processes, and techniques to achieve world-class standards and set new industry benchmarks.

As a global leader in decorative laminates and surface solutions, the organisation has a strong presence in over 90 countries across five continents. Focused on manufacturing superior products, the organisation serves as a global manufacturing hub with an annual production capacity of over 3500 million sqft of HPL.

At Virgo, we don't just meet our customers' expectations; we strive to exceed them every time. Our dedicated workforce of over 2,000 employees is trained to achieve this goal, and many more will be joining the Virgo family. Our modern production unit offers numerous products catering to the global market, all aimed at ensuring 100% customer satisfaction.

Virgo's remarkable expansion isn't limited to vertical growth as a global decorative laminate leader, but it also extends laterally into interior architectural products and aluminium. This demonstrates Virgo's commitment to innovation and exploration for our stakeholders and partners.

Deeply rooted in the Indian values of "Vasudhaiva Kutumbakam," we believe that the world is one. Inspired by this, Virgo prioritises the community and the environment, placing strong emphasis on overall sustainability. These values are central to all our new product developments, including raw materials, processes, and technology. Sustainable development is the way forward at Virgo.

WHY VIRGO!

Fostering creativity

Superior functionality

Best service

MISSION

A world-class manufacturing hub driven by constant innovation, Virgo prioritizes customer requirements and interprets global trends to deliver top-of-line products. We are committed to delivering exceptional services and support for customer delight at every step.

VISION

At Virgo, we are dedicated to staying ahead of global competition and setting new industry benchmarks through constant innovation and evolution, including new processes, technology, and techniques for product development.

VALUES

Virgo consistently exceeds its previous accomplishments by optimising resources to achieve global efficiency levels. This involves ongoing workforce training enhancements meticulous technology and process implementation and revision, dedicated research and development, and the implementation of waste reduction strategies to strengthen sustainability.

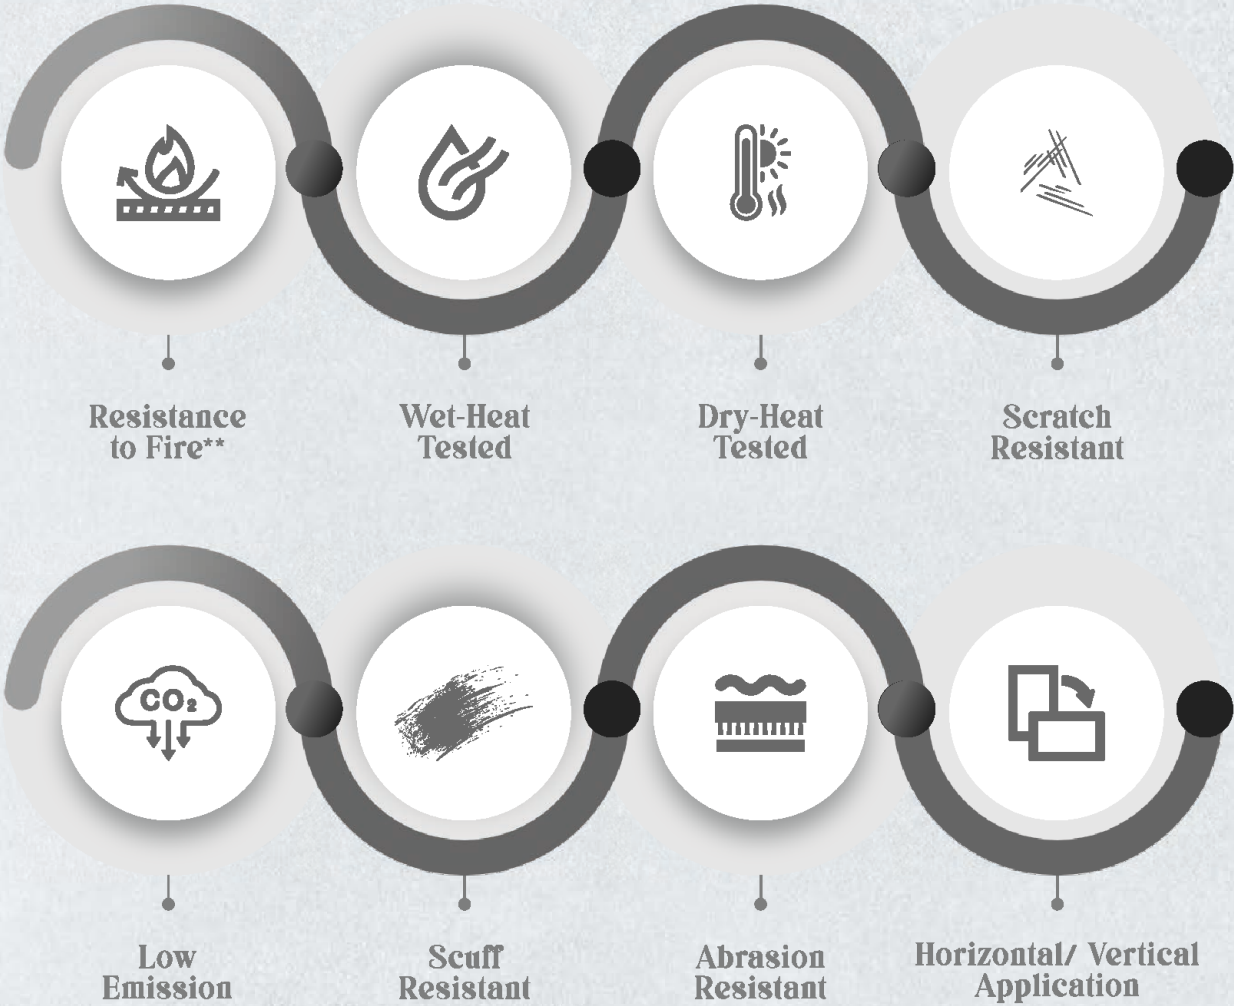

Sustainability

Our planet Earth is not just our home, but also the source of our sustenance and nurture. As beneficiaries of its abundance, it falls upon us to reciprocate.

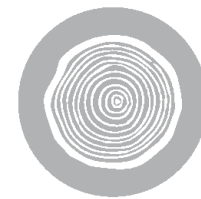

At Virgo, we are dedicated to embracing sustainable and ethical practices as a means to safeguard our environment. Our products are crafted using natural raw materials, resulting in minimal emissions, superior durability, and providing straightforward recycling and disposal options. This approach ensures that our end users receive goods with negligible environmental footprints. Virgo proudly holds certifications from GreenGuard, GreenGuard Gold, and Green Label, attesting to our commitment to upholding the highest green building standards as a prominent national manufacturing entity.

CROWN

Tangential cuts along the growth rings of the log produce crown cut woodgrain with a pattern that is characterised by straight grains intermixed with cathedrals. The looks of crowns and knots are bold and distinctive, giving a unique character to the woodgrain.

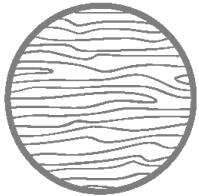

PARTIAL CROWN

Similar to crown design, it is cut vertically in the middle along with the ripple, leaving only half of the long, thin crown rings. The result is a woodgrain that has retained its natural look, with less complexity.

STRAIGHT

For those desiring simpler, clean design, straight woodgrains are the perfect answers. The lines have a slight wave, adding some variety to the pure wood design that come with no knots or crown.

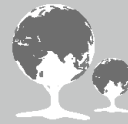

HORIZONTAL

Play with directions and have your woodgrains laid horizontally. These are great for on long horizontal pieces, drawing the eye down to highlight width, and at the same time avoiding joint lines on long vertical pieces.

THE BEAUTY OF ARTISTIC STRUCTURES

EFFORTLESS SOPHISTICATION

TableAu offers a wide range of platter of designs, from contemporary to classic, catering to a diverse audience. These platters are aesthetically pleasing and come with stain and moisture-resistant, anti-fungal, and anti-bacterial properties. They are the top choice for designers for both indoor and outdoor spaces, surpassing every expectation.

STATE-OF-THE-ART DESIGN

TableAu's designs elevate the aesthetic appeal of every surface with a touch of authenticity, from rustic woods to contemporary stones. The interplay of design texture and light, combined with ideal thickness, ensures a seamless blend with tactile counterparts. TableAu offers meticulously crafted designs in shapes ranging from rectangle to oval, complementing any worktop.

VALUE FOR TIME AND MONEY

Gone are the days of complex assembly processes for tabletops. TableAu's ready-to-install designs are not only easy to set up but also easy to maintain due to their abrasion-resistant quality. These worktops seamlessly blends form and functionality, adding sophistication to your interiors or workspaces.

Fire Shield

Fire Retardant HPL is a unique type of halogen-free laminate that sets the standard in fire resistance. Adhering to the stringent standards of EN 438, it achieves an impressive Class 1 grade performance. When combined with the right substrates and adhesives, Fire Retardant HPL becomes an indispensable solution, effectively reducing casualties and limiting damage from fire hazards.

ESD

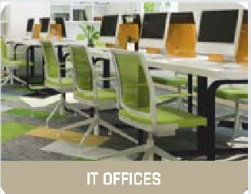

Electro Static Dissipative Laminates are Laminates that diffuse Static Energy to protect electronic and other sensitive equipment from electric charges that could harm them during production. They are created to reduce electrostatic charges in the Workplace. The Decorative Surface is treated with a Conductive Layer which creates a consistent path to ground the Static Charges.

Electro Static Dissipative Grade HPL is in accordance with EN 438-3: 2016 and exceeds the Standard Values as per Testing accordance with IEC 61340 – 2- 1: 2017.

Composition

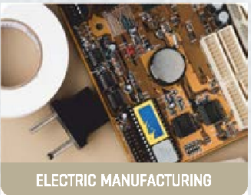

FACTORIES & ASSEMBLY

IT OFFICES

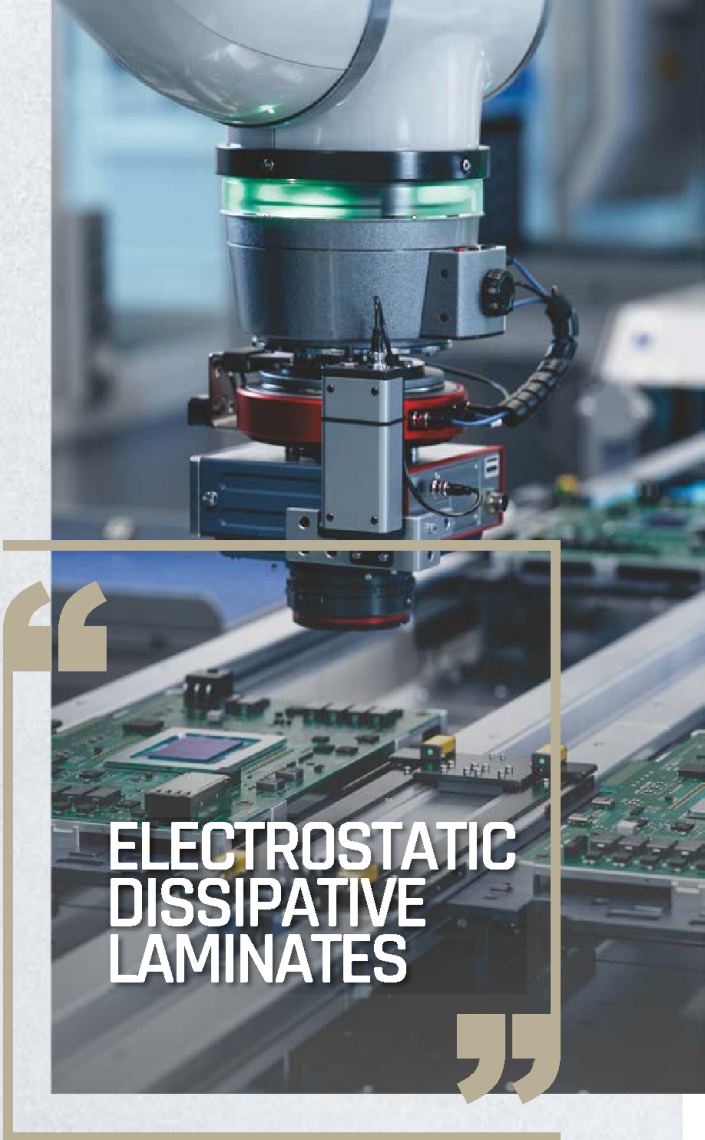

DATA CENTRES

ELECTRIC MANUFACTURING

Recommended Usage:

- Static Surface Applications - drains out static charge
- Minimises chances of sparking and prevents sensitive electronic parts & appliances from getting damaged
- ESD Surfaces do not allow any dust to get accumulated on the surface
- ESD Laminates meets/exceeds the cut-off level to be considered acceptable for use in all Static Safe Applications

PRODUCT PORTFOLIO

LAMINATES

HIGH PRESSURE LAMINATE

Experience the perfect harmony of design and durability with VIRGO laminates, crafted to meet the highest standards of quality and style. These laminates bring your vision to life, offering innovative designs and superior performance for all your interior needs. With an array of colours, patterns, and textures, VIRGO provides the versatility to create stunning and personalized spaces. Impregnated with decorative and kraft papers, VIRGO Laminates upgrade your interior with a seamless blend of aesthetics and practicality.

LAMIFLEX

"Lamiflex" represents a specially formulated grade of laminate possessing the well-established attributes of standard-grade high-pressure laminates. This variant is uniquely capable of being shaped into uncomplicated cylindrical concave or convex curves. The resulting curved surfaces, devoid of discernible seams, often present a more aesthetically pleasing appearance compared to sharp edges found on both internal and external angles. Additionally, these curved surfaces eliminate joints that tend to accumulate dirt and water.

COMPACTS

COMPACT

Virgo Compacts are the ultimate choice for surfaces that demand both style and substance. Our compact laminates are crafted by combining decorative paper (melamine resins) and Kraft paper (reinforced with layers of phenolic), which are then fused together using thermosetting resins at a high temperature of 150°C. This rigorous process ensures a durable and versatile product, perfect for high-performance applications. Ideal for retail shops, airports, shopping malls, offices and buildings, healthcare facilities.

CUBICO

Virgo Cubico stands as a leading supplier of advanced washroom and locker solutions, featuring high-performance laminates acknowledged for their durability and adherence to fire safety standards. Our comprehensive product range caters to diverse sectors, including corporate, healthcare, education, and government, enriching facilities with High Pressure Laminates (HPLs) and cubicles that blend aesthetic appeal with water/fire resistance and anti-bacterial properties.

CLADDICE

The use of exterior grade laminate emphasises the balance of durability and aesthetics. Virgo has excelled in this area, solidifying its position as a key player in the laminates industry. Given the dynamic climate and diverse weather conditions, the need for enduring solutions against external elements is paramount. As a solution Virgo Claddice introduces wall claddings engineered to withstand extreme climatic conditions. These claddings not only safeguard exteriors but also deliver exceptional visual appeal.

TABLE AU

Enter the realm of Table Au, where the commonplace transcends into the extraordinary. We extend an invitation to explore a world of effortlessly elegant and pre-assembled worktops that redefine the art of interior design. Meticulously crafted, these worktops epitomise the seamless integration of form and function.

DIGI LAM

Virgo Digi Lam offers the opportunity to preserve cherished memories or enhance any wall with a preferred laminate. This versatile solution allows for the personalization of tabletops and walls with the option to extend designs across various surfaces or select specific areas for emphasis.

CORESHADES

Monochrome Laminates present a unique amalgamation of premium decorative laminates and consistent solid colors. This seamless fusion of the core and surface renders it an optimal choice for applications such as tabletops and countertops, enabling the uninterrupted radiance of solid colors.

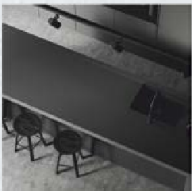

WRITE MATE

Write Mate is a specialized surface designed to facilitate the effortless erasure of standard writing chalk for both vertical and horizontal applications. Write Mate Laminate is crafted using decorative surface papers that have been impregnated with melamine resins and pressed over kraft paper core sheets impregnated with phenolic resin.

SPOTLESS

Spotless Laminate represents a harmonious blend of aesthetics and functionality. Its exceptional fingerprint resistance, soft finish, anti-bacterial properties, and innovative technology render it an exemplary choice for individuals seeking both elegance and practicality in their decor surfaces.

PERFORMANCE LAMINATES

ESD (ELECTROSTATIC DISSIPATIVE)

Electro-Static-Dissipative Laminates are designed to effectively dissipate charges and repel dust particles. The top layer of these laminates showcases superior static charge dissipative properties. Including a special conductive layer, these laminates ensures the secure discharge of static charges when appropriately grounded. This feature serves to minimise damage to sensitive internal circuits and has the potential to contribute around 30% increase in the productivity of electrical devices.

ABIOTIC

Abiotic laminates have been designed to enhance surface performance with exceptional hygiene standards. Through the incorporation of specialized additives, these laminates effectively inhibit the growth and proliferation of bacteria by 99.99% within a 24-hour time frame. Additionally, these surfaces demonstrate uniformity and non-porous qualities, thereby showcasing outstanding performance and hygiene.

FIRE RETARDANT

Halogen-free fire-retardant laminates, represent a distinctive category of laminates. This product complies with the rigorous standards of ASTM and NFPA, warranting an exceptional Class 1 grade performance for fire resistance when combined with suitable substrates and adhesives.

CARE & MAINTENANCE

CLEANING

- When cleaning the surface, dampen a cloth or use a melamine sponge with mild soap or detergent if needed.
- Stubborn stains such as coffee or tea can be eliminated with a mild household cleaner and a soft bristle brush.
- For persistent stains, create a paste with baking soda and water, then gently scrub in a single direction for 10 to 20 strokes. Avoid excessive scrubbing to prevent damage to glossy finishes.
- Avoid highly acidic or alkaline products that may stain the surface.
- Use a clean cloth when using solvents to prevent marks on the surface.
- Avoid using furniture polishes, low-pH paint thinners, and wax-based detergents on Foil HPLs, as they can leave a sticky residue and harm the surface.
- Caution: Prolonged exposure to bleach will cause discoloration of the laminate surface.

HARSH CHEMICALS

- Chemicals like oven, toilet, or drain cleaners will etch and discolor the decorative surface. Avoid using cleaners such as:
- Toilet bowl and drain cleaners
 - Coffee pot cleaners
 - Hydrogen peroxide or chlorine bleach
 - Hard water stain removers
 - Oven cleaners- Metal cleaning products
 - Fruit juice and tub/tile cleaners

ABRASIVES

Abrasive materials, scouring powders, or cleaners can permanently scratch and dull the laminate surface, making it more prone to staining.

SHARP OBJECTS

Avoid using knives or sharp tools directly on the decorative surface. It is advisable to use a chopping board or counter saver.

HOT OBJECTS

- Do not place hot items directly from the oven or stove top on the laminate surface. While Virgo Croma HPL is heat-resistant, exposure to temperatures above 160°C is not recommended.
- Protect the surface from heat-producing appliances like irons, toasters, and curling irons using a trivet or insulated pad. Extended exposure to high temperatures may damage the surface, causing blisters, dulling, or laminate separation.

IMPACT

Avoid dropping heavy objects or hammering directly on the HPL surface. Despite its impact resistance, high-pressure decorative laminate may chip or crack if mishandled.

- Virgo Croma HPL surfaces do not necessitate any specific upkeep.
- Conventional household cleaning products or disinfectants are suitable.
- For regular cleaning, utilize a melamine foam sponge.
- To remove tough stains like paint marks, consider using non-harsh aromatic solvents (e.g., acetone).
- Refer to the brochure or catalog for cleaning instructions specific to the product.
- Care & Cleaning Recommendations

WORDWIDE PRESENCE

CERTIFICATIONS

ABIOTIC

Safe and Healthy Living alongside VIRGO Products this revolutionary development retards the growth of common bacteria, making Virgo products ideal for laboratories, kindergartens, offices, and domestic environments.

CE

VIRGO products have been awarded CE certification confirming their compliance with essential European health, safety, and environmental protection legislation by many Product Directives. This marking assures the government officials that the products can be legally placed in the market.

FSC®

VIRGO's products are available as FSC® certified, ensuring that we are promoting responsible forestry. We are working for a sustainable and greener future environment. The FSC® certification is a benchmark for a traceable, responsible supply chain and Virgo is complying with all the requirements. All products manufactured by the company are available as FSC® certified products (certificate code- SCS-COC-010114) on request.

MyHIAU

Endorsed with the MyHIAU Mark, Virgo Laminates is recognized as part of Malaysia's official green product directory. This certification reflects our ongoing commitment to responsible manufacturing, reduced environmental impact, and support for sustainable building practices.

SGBC

At Virgo Laminates, sustainability is at the core of innovation. Our SGBC 4-Tick certification stands as a mark of excellence, ensuring our laminates contribute to healthier spaces, lower environmental impact, and responsible building practices.

EN 438-2

VIRGO products are tested under BS EN 438 – 2 to ensure dimensional stability and performance standards for resistance to boiling water, moisture, impact, scratches, and stains.

LIMITED WARRANTY

Virgo provides a warranty to the original purchaser that Virgo Croma Laminates will be free from defects when used as intended and under normal conditions within acceptable manufacturing standards. In the event of a claim due to a defective laminate, the buyer's exclusive recourse is limited to the replacement of the laminate by Virgo.

PLEASE TAKE NOTE:

- The application images featured in the catalogue are for illustrative purposes only. To accurately assess color and texture assessment, refer to the actual product sample.
- The samples showcased are indicative of the available color patterns and finishes and are provided for reference purpose only.
